Query to add a column to an existing table

```sql
ALTER TABLE pizza.dbo.orders
ADD weekday varchar(50);
```

Query to update the weekday column in the orders table

```sql
UPDATE pizza.dbo.orders
SET weekday = CASE
    WHEN DATEPART(weekday, date) = 1 THEN 'Sunday'
    WHEN DATEPART(weekday, date) = 2 THEN 'Monday'
    WHEN DATEPART(weekday, date) = 3 THEN 'Tuesday'
    WHEN DATEPART(weekday, date) = 4 THEN 'Wednesday'
    WHEN DATEPART(weekday, date) = 5 THEN 'Thursday'
    WHEN DATEPART(weekday, date) = 6 THEN 'Friday'
    WHEN DATEPART(weekday, date) = 7 THEN 'Saturday'
END;
```
